

Search & Learn Down My Street

Double the learning fun with the Puzzle Doubles Search & Learn series! Each beautifully illustrated floor puzzle includes 12 double-sided question cards and 12 game puzzle pieces. First, have the child assemble the puzzle, leaving out the 12 clearly marked game puzzle pieces. Once assembled, the puzzle becomes a game! As the parent reads the question cards aloud, the child locates the correct game pieces and places them into the puzzle. As an additional learning exercise for younger players, use the reverse side of the question cards to play a matching game with the 12 game puzzle pieces. The Search & Learn series is a fantastic interactive learning tool for all children ages 3 and up. Each 50-piece puzzle measures a giant 3' X 2' (91.44cm X 60.96cm)!
Item #029084

Features

- 50 puzzle pieces, including 12 game puzzle pieces
- 12 question cards for game play
